### Pax to Cargo conversion – prim. structure protection & safety

Aircraft's passenger floor is modified to cargo for temporary use. Within the conversion most cabin interior is removed and seat rails are **unprotected from dirt, liquids or damage**. Seat rail covers prevent from massive costs on repairs – we supply solutions to reduce your future costs:

#### Gap filler

- ✓ No rail corrosion
- ✓ Dirt prevention
- ✓ Flexible cover, self-adhesive

1

Self-adhesive strip

#### Flat cover

- ✓ Flexible click in/out
- ✓ Avoids trip hazard
- ✓ Increases cabin safety

2

Flat click cover profile

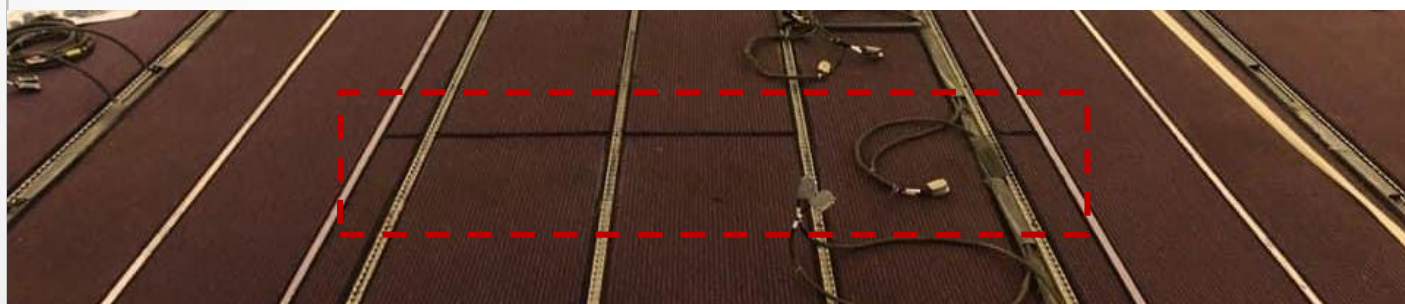

#### Profile Covers

- ✓ No carpet damages
- ✓ No wire damages
- ✓ Increases cabin safety

3

Carpet/rail click profile

Certified material ++ cut to lengths as needed ++ various designs ++ EASA Form 1

**Protect primary airframe structure from damages, corrosion and increase safety on board by easy "click-in/out" installation**

#### Benefits

- ✓ Supply from stock or production
  - ✓ Production
  - ✓ Stock
- ✓ Cost saving compared to market due to production access or custom price-breaks.
- ✓ Stable and flexible Vestamid material
- ✓ OEM of all Airbus Seat Rail Covers
- ✓ Material fully certified (EASA Form 1)

#### Contact

## Pax to Cargo conversion – technical data for seat rail covers

Products are manufactured in all kind of colors. Here we listed profiles for Airbus and Boeing we can supply from stock or production. All material is certified to aerospace applications.

### Gap filler, self adhesive strip

Standard/PN	Illustration	Width (mm)	Typical use	Certificate	Cost saving
J533-100026*		30,0	Airbus	EASA Form 1	40-50%

\*also alternate to OEM F252-76667-000-00

### Flat click covers (Seat Rail Cover)

Standard/PN	Illustration	Width (mm)	Typical use	Certificate	Cost saving
ABS0318AA		31,0	Airbus	EASA Form 1	10-20%
ABS5790AA		33,0	Airbus	EASA Form 1	10-20%
ABS5096AA		33,0	Airbus	EASA Form 1	10-20%

### Carpet/rail click profile (Seat Rail Cover)

Standard/PN	Illustration	Width (mm)	Typical use	Certificate	Cost saving
ABS5643AA		80,0	Airbus	EASA Form 1	10-20%
ABS0317AA		50,4	Airbus	EASA Form 1	10-20%
ABS0317AB		76,4	Airbus	EASA Form 1	10-20%
ABS5033AA		98,0	Airbus	EASA Form 1	10-20%
BAC1522-147**		56,4	Boeing	EASA Form 1	40-50%
BAC1522-706**		101,5	Boeing	EASA Form 1	40-50%
BAC1522-750**		118,9	Boeing	EASA Form 1	40-50%
SACV30683		50,4	All	CoC	10-20%
SACV77150		60,0	All	CoC	10-20%

\*\*alternates same, form, fit & function with EASA Form 1

**Colors:** We can supply in all colors

**Cost saving:** We can offer cost savings compared to market as we supply from production & stock. Certified alternates with EASA Form 1, SB and IPC supplement even have a greater saving.
